**NHTSA – 2018 Heatstroke**  
***Live Reads – General***

(:05)

*Every year, children die from heatstroke in cars. So, set a reminder, and always look before you lock.*

(:10)

*Every year, children lose their lives to heatstroke in cars. A vehicle only takes a moment to heat up to dangerous levels. So, set a reminder, and always look before you lock*

(:15)

*It only takes a moment for a car to heat up to dangerous levels, even on cooler days. Each year, children lose their lives to heatstroke after being left behind in a motor vehicle. So, get in the habit of always checking the backseat and setting reminders. Look before you lock.*

(:30)

*Every year, children lose their lives to heatstroke after being left behind in a motor vehicle. It only takes a moment for a car to heat up to dangerous levels, even on cooler days. Whether you're a parent or a caregiver, get in the habit of checking the backseat and use easy reminders to ensure the child always come with you. No one is perfect, but a few simple precautions make sure baby is safe. Look before you lock.*
